1. BASIS FOR THE PREPARATION AND INFORMATION ON PRINCIPLES ADOPTED FOR PREPARING THE CONSOLIDATED REPORT ON PAYMENTS TO GOVERNMENTS

The consolidated report on payments to governments („Report”) has been prepared in accordance with the Polish Accounting Act of 29 September 1994 (uniform text: Polish Journal of Laws 2021, item 217, Chapter 6a) („Act”) and presents payments to governments in extractive industry of the Capital Group of Polski Koncern Naftowy ORLEN S.A. („Group”, „ORLEN Group”) in the year 2021.

Polski Koncern Naftowy ORLEN S.A. as the Parent Company is required to prepare consolidated report on payments to governments for the year ended 31 December 2021 covering data of the Parent Company and its subsidiaries operating in extractive industry.

Payments to governments presented in the Report relate to exploration, recognition and extraction of hydrocarbons in Poland and in Canada and extraction of rock salt in Poland.

The Group discloses returns in the period of receiving them and are presented in the Report as negative value.

More information on extractive activities is presented in the Management Board Report on the operations of the ORLEN Group and PKN ORLEN S.A. for the year 2021 published on website:

<http://www.orlen.pl/EN/InvestorRelations/FinancialData/Pages/FinancialResults.aspx>

2. TERMINOLOGY USED

Government - under the Act, any national or local authorities as well as all entities supervised or controlled by these authorities, and in other countries of the European Economic Area or countries outside the European Economic Area - any national, regional or local authority of the European Economic Area or a country outside the European Economic Area and entities supervised or controlled by those authorities.

In 2021, all payments disclosed in the ORLEN Group were made to national and local governments as well as to entities supervised or controlled by that authority in Poland and to regional authority and entities supervised by regional authorities in Canada.

Project - under the Act, the operational activity which is governed by a single contract, in particular leasing, letting, license or concession, being the basis for payment liabilities to a government of individual countries.

The Group aggregated the payments within a project if several such agreements were substantially interconnected. Substantially interconnected means geographically integrated concession units and purpose of work carried out on them resulting, to a significant extent they are considered jointly for the program of conducted exploration and prospecting works and construction of the necessary infrastructure for development and extraction of hydrocarbons and rock salt.

Reporting currency - the reporting currency of this Report is Polish Zloty (PLN). Payments are presented in PLN thousands. All amounts are rounded to the nearest thousand.

Principles applied to translation of financial data - payments to governments of foreign entities operating in Canada for the year ended 31 December 2021 were translated at the average exchange rate for the reporting period (arithmetic average of daily average exchange rates published by the National Bank of Poland in a given period) – 3.0800 CAD/PLN.

Payment - under the Act, amount paid whether in money or in kind for activities in the extractive industry.

Materiality threshold - according to the Act, the Group did not disclose payments were a single payment or a series of related payments did not exceed PLN 425 thousand.

In 2021, the Group identified the following payment types:

– Taxes on income, production or profits (Taxes)

Under the Act, taxes levied on income, production or profits excluding taxes on consumption, such as value added tax, personal income tax or sales tax.

The Group presented in this item mining fees as a tax on production, the amount of which depends on the realized volume of extraction.

– Royalties

Payments for use of non-current assets of the entity for the rights to the exploration and exploitation of natural resources (e.g. minerals or crude oil and natural gas).

The Group has this type of payments for crude oil, natural gas and gas condensate of NGL (natural gas liquids) in Canada. Payments for crude oil are made in kind, remaining in cash. The value of payments in kind is determined based on the volume and the reference price of a given species of crude oil specified by the Alberta Department of Energy.

– License fees, lease fees, charges for start-ups and other benefits arising from the granting of licenses or concessions (Other fees and benefits)

Under this item the Group presented the following fees:

in Poland: mainly fees for establishing mining usufruct, environmental fees (for the effluent discharge to water or to the ground, for the collection of surface water for mines, releasing gases and dust into the air), fees for excluding land from agricultural production, fees under the geological and mining law on the amount of gas and condensate extracted and stamp duty;

in Canada: payments into the reclamation fund.
